ACTIVITY PACK

Activity 2: Prompts

Activity 2 - Analyse Excel Marketing Data with the Agent

Course	AI Agent Security
Course code	C28
Version	1.0 | 30 September 2026

Tertiary Infotech Pte Ltd | UEN 201200696W

Prompts

Activity 2 - Prompt Sheet

Evidence status: SIM - all data is fictional. Upload `MOCK-MARKETING-DATA.xlsx` to the Hermes (MiniMax) agent first, then use the prompts below.

Warm-up - Bad vs Good (top channels by ROI)

Send the BAD prompt first, then the GOOD one, and compare the answers.

- **Bad:** "Which is better?"
- **Good:** "Using the uploaded spreadsheet, calculate ROI as Revenue / Spend for each Channel across all six months combined. Rank the channels from highest to lowest ROI and show the result as a small table with Channel, Total Spend, Total Revenue and ROI."

Main task - the REPORT prompt

Send this as one prompt (adjust wording if your trainer tells you to):

> Analyse the uploaded Excel file of monthly marketing data for Sunset Bay Resort Singapore (Jan - Jun 2026, Google Ads and Facebook Ads).
>
> 1. **Analyse:** For each channel, calculate total Spend, total Revenue, ROI (Revenue / Spend), conversion rate (Conversions / Clicks) and cost per conversion (Spend / Conversions). Also show the month-on-month revenue trend for each channel.
>
> 2. **Charts:** Generate three charts - (a) monthly Revenue by channel as a line chart, (b) ROI by channel as a bar chart, (c) Spend vs Revenue by month for Facebook Ads.
>
> 3. **Report:** Generate a **Word (.docx) report** titled "Sunset Bay Resort - Marketing Performance Report, Jan - Jun 2026" containing: an executive summary (max 5 sentences, plain English for a non-technical resort manager), the metrics table, the three charts each with a one-sentence caption, a short analysis of what the numbers show, and a **Recommendations** section with at least three specific, numbers-backed recommendations (including one channel to reduce spend on and why).
>
> Give me the .docx as a downloadable file.

Report checklist (mark as you check the .docx)

- [ ] Executive summary is plain English and 5 sentences or fewer
- [ ] Metrics table present, and the totals match the spreadsheet
- [ ] All three charts present, each with a caption
- [ ] Analysis mentions that Facebook Ads spend keeps rising while its revenue flattens near S$30,000
- [ ] At least three recommendations, each backed by a number from the data
- [ ] Nothing invented - every figure traceable to the spreadsheet

What makes a GOOD prompt (fill in as you go)

- It names the **columns and metrics** to use: _____
- It defines **how each metric is calculated** (e.g. ROI): _____
- It specifies the **outputs** (charts, .docx report, sections): _____
- It states **who the report is for** (audience): _____
