Prompts

Activity 4 Prompts - Same Prompt, Before and After the Skill

Evidence status: SIM - all data is fictional. You will run the **same 10-slide prompt twice**: once **before** installing the `pptx` skill (Deck A) and once **after** (Deck B). Copy it exactly both times - the prompt must not change, only the skill.

The 10-slide prompt (run it twice, word for word)

"Build a **10-slide** PowerPoint for the fictional **Sunset Bay Resort - 2026 Marketing Plan**, expanding the 5-slide script from my earlier task. Return it as a downloadable PowerPoint file.
Exactly 10 slides, in this order:
1. **Title** - Sunset Bay Resort - 2026 Marketing Plan (subtitle: Growing direct bookings for our fictional beachfront resort)
2. **Agenda** - one line per section of this deck
3. **Where We Are Today** - Google Ads returns about S$10 per S$1 spent; Facebook Ads spend rising but bookings flat since March; guests love the sea-view rooms and weekend brunch
4. **Our Guests** - two short fictional guest profiles (a young couple on a weekend break; a family on school-holiday travel)
5. **Our 2026 Goals** - grow direct bookings 20%; shift budget to the best-returning channels; launch a simple loyalty offer
6. **Marketing Channels** - increase Google Ads gradually; reduce Facebook Ads; test email offers to past guests
7. **Campaign Calendar** - one simple quarter-by-quarter plan (Q1 loyalty launch, Q2 school-holiday push, Q3 review-themed ad copy, Q4 year-end offer)
8. **Budget & Expected Return** - keep every figure consistent with slide 3; track cost per booking monthly
9. **Risks & How We Manage Them** - 2 - 3 simple risks (e.g. channel costs rise, offer misused) each with one plain mitigation
10. **Summary** - the 4 key takeaways
Rules: **2 - 4 short bullets** per content slide; **do not invent figures** beyond what I gave you; **brand tone:** warm, welcoming, confident - a friendly beachfront resort, not a bank; add a simple **title animation** to every slide."

Compare Deck A (no skill) vs Deck B (with `pptx` skill)

What to check	Deck A (before)	Deck B (after)
Did you get a real downloadable .pptx file?		
Exactly 10 slides, in the order asked?		
Fonts, colours and spacing consistent throughout?		
Any invented figures or extra points not in the prompt?		
Is the summary slide a real summary of the deck?		

Verdict: one clear improvement the skill gave you, and one thing that stayed the same or got worse:

1. Improvement: _____
2. Same or worse: _____
